SUMMARY

Software Engineer with hands-on experience building frontend, mobile, and backend features using React, TypeScript, React Native, Node.js, Express.js, ASP.NET Web API, SQL, and MongoDB. Experienced in enterprise UI modules, reusable components, REST API integration, authentication workflows, Azure, and production-focused feature delivery.

EXPERIENCE

Tata Technologies Limited

Frontend Developer

Feb 2026 – Present

Thane, Maharashtra

- Contributing to live enterprise business solutions through structured engineering training and frontend development assignments.
- Building application features with React, TypeScript, and modern component-driven workflows while collaborating with engineering teams in an on-site enterprise environment.
- Strengthening production delivery practices across debugging, API integration, code reviews, sprint execution, and business-focused feature implementation.

Dscission Automation Ltd.

Frontend Developer

Jun 2025 – Feb 2026

Pune, Maharashtra

- Developed enterprise frontend modules using React, Redux, TypeScript, Material UI, and Syncfusion for Power BI scheduling, product management, contracts, and notifications.
- Built reusable UI components, custom hooks, dynamic forms, and grid-based workflows, improving maintainability and development efficiency.
- Developed ASP.NET Web APIs and Azure SQL tables/stored procedures to support frontend, mobile, reporting, and business workflows.
- Integrated Power BI into mobile applications and collaborated with backend, QA, and stakeholders to deliver features and resolve production issues.

PROJECTS

GymBuddy – Gym Management Platform | *React Native, Node.js, Express.js, MongoDB, Razorpay, Firebase*

- Developed a full-stack gym management platform for owners, trainers, and members with membership, attendance, workout, diet, subscription, and payment management.
- Built scalable REST APIs using Node.js, Express.js, and MongoDB with JWT authentication, RBAC, and push notifications.
- Integrated Razorpay for secure payments, automated email receipts, and dashboards for efficient gym operations.

Employee Management System | *React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS*

- Built a full-stack Employee Management System with JWT authentication, role-based access control, and employee lifecycle management.
- Designed RESTful APIs for authentication, CRUD operations, department management, and protected routes using Node.js and Express.js.
- Developed responsive React dashboards with search, filtering, pagination, analytics, and reusable components for scalable management.

The Wild Oasis – Hotel Booking Platform | *Next.js, TypeScript, Supabase, NextAuth, Tailwind CSS*

- Developed a production-ready hotel booking platform using Next.js App Router, Server Components, and Server-Side Rendering (SSR) to improve SEO and application performance.
- Integrated Supabase for database operations and NextAuth for secure authentication with protected routes and session management.
- Implemented dynamic routing, caching, image optimization, and responsive UI to deliver a fast, accessible, and optimized user experience.

EDUCATION

Amrutvahini College of Engineering

Bachelor of Engineering in Computer Engineering, CGPA: 7.62 / 10

Sangamner, Maharashtra

2021 – 2025
